Re: South Lisbon Mine
San Juan County, Utah
ACT/037/018

Dear Mr. Newman:

In reviewing your Mining and Reclamation Plan, it has been brought to our attention that you have initialled material to be held as confidential.

If you would notify us as to what specific material, such as maps showing location of drill holes and underground workings, ore deposits, etc., that you wish to have with-held as confidential we would be glad to do so. The entire plan can not be held confidential, however.

Sincerely,

JAMES W. SMITH
RECLAMATION SOILS SPECIALIST
